YOGESH SABBANI

Software Engineer | Full Stack Developer | Hyderabad, India |

Mob: +91 9347822854 | **Email:** yogeshsabbani67@gmail.com |

GitHub: github.com/YogeshSabbani1213 | **Portfolio:** [My-Portfolio-Live](#)

Career Objective:

Aspiring Software Engineer with hands-on experience in Full-stack web development using **React.js, Node.js, Express.js, MongoDB, and JavaScript**. Strong understanding of REST APIs, authentication, responsive web applications, and Software Development life cycle concepts. Skilled in problem-solving, clean code practices, and collaborative development with a foundation in Java, DSA, and OOP concepts. Seeking an opportunity to contribute to enterprise-level software solutions and grow within a dynamic engineering environment.

SKILLS

- **Languages:** JavaScript (ES6+), Java, HTML5, CSS3.
 - **Frontend:** React.js, Redux, Context API, React Router, Responsive Design.
 - **Backend:** Node.js, Express.js, RESTful APIs, JWT Authentication.
 - **Database:** MongoDB, Mongoose, SQL (Basics)
 - **Tools & Platforms:** Git, GitHub, Postman, VS Code.
 - **Core Concepts:** Data Structures & Algorithms, OOP, SDLC, REST Architecture, Authentication & Authorization, API Integration.
 - **Soft Skills:** Problem Solving, Team Collaboration, Communication Skills.
-

PROJECTS

Job Portal Application | MERN Stack

[GitHub](#) | [Live-Demo](#)

- Developed a full-stack job portal application enabling job posting, application tracking, and role-based access control (RBAC) authentication for recruiters and candidates.
- Built REST APIs using Node.js and Express.js for user management, job listings, and application workflows.
- Designed MongoDB collections and schema relationships for efficient data storage and retrieval and implemented JWT authentication for secure access control.
- Created responsive frontend interfaces using React.js with reusable components and dynamic routing.

RESUME

YouTube Clone – Video Sharing Platform | *MERN Stack* [GitHub](#) | [Live-Demo](#)

- Engineered a MERN-based video sharing platform with JWT authentication, RESTful APIs, protected routes, and scalable MongoDB schema design.
- Developed core functionalities including video uploads, commenting system, channel subscriptions, and user profile management.
- Implemented Context API and React Router for efficient state management and seamless navigation.
- Designed responsive UI components to support both desktop and mobile devices.

ShoppYGlobe – E-commerce Application | *React.js* [GitHub](#) | [Live-Demo](#)

- Developed ShoppYGlobe e-commerce web application using React, implementing component-based architecture with Redux, Context API & custom hooks for scalable state management.
- Integrated product listing & details pages with API fetching (dummyjson.com) using useEffect, implemented search, cart management, checkout flow, with lazy loading and responsive UI.
- Implemented dynamic routing with React Router, reusable components with props, and proper error handling for a smooth user experience.

EXPERIENCE - Freelance Full Stack Developer

Prashanthi Neuro Psychiatric Hospital

[GitHub](#)/[Live-Demo](#)

- Developed and deployed a full-stack hospital website using MERN Stack with JWT authentication and secure backend APIs.
- Implemented responsive UI, role-based authorization, and password encryption using bcrypt.
- Managed domain setup, deployment, and Google indexing to improve the hospital's online presence.

EDUCATION

B.Tech, Information Technology | 2022 – 2025 Gokaraju Rangaraju Institute of Engineering and Technology, Hyderabad

Diploma in Engineering | 2022 Kshatriya College of Engineering

SSC (Class X) | 2019 ZPHS Borgam (P)

RESUME

CERTIFICATIONS

- Full Stack Development (MERN) – Internshala
- Data Structures and Algorithms – Smart Interviews
- JavaScript & HTML/CSS – Internshala
- Java Programming – Spoken Tutorials
